

## AIR CONDITIONING REFRESHER

EAN code: 5907588402842 item no.: 001043 cap. 200ml

## PROPERTIES

Air conditioner refresher is a special aerosol that refreshes the air conditioning system in motor vehicles. Does not contain ethyl alcohol. It removes bacteria, mites and fungi from the system, thus eliminating the unpleasant odor occurring during operation of the air conditioning system.

## COLOUR

○ white

## METHOD OF USE

Shake the container vigorously for about 3 minutes before use. Keep the container upright during use. Set the airflow only through the vents in the center of the dashboard. Turn on "air recirculation" mode, maximum supply and lowest temperature. Turn off the air conditioning. Inject the product directly into the inner intake opening located in the lower leg area using long pulses until the can is empty. Use the entire contents of the can. Turn off and wait 10 minutes before turning on the air conditioning.

## APPLICATION

Mix thoroughly

Inject into the lower intake opening

Wait 10 minutes before switching on the air conditioning

## PHYSICAL PROPERTIES

physical state: aerosol  
density at 20°C: 0,951 g/cm<sup>3</sup>

## STORAGE CONDITIONS

Protect the product from excessive heat and cold. Avoid direct exposure to sunlight. Store in a dry place.

## SHELF LIFE

24 months from the date of production placed on the package.

## SAFETY

See Safety Data Sheet.

## OTHER INFORMATION

All technical data are approximate values. We advise you to test the material to ensure suitability for your specific application. The producer reserves the right to improve the product and change the technical conditions with the possibility of making changes inside the specification.
